EaglAI
The New Enabler of Quality

MULTIVISTA

Let's Make Poor Quality a Problem of the Past

Leverage the power of **computer vision** and **artificial intelligence** to identify defective output, prevent future poor quality and to keep your workforce safe.

Our Products

EaglAI Detect

Cutting-edge, AI powered vision system for detection of surface defects and dimensional imperfections.

Applications: F&B, FMCG, Auto, Textile, Packaging

EaglAI Protect

Smart, AI powered system for plant safety and regulatory compliances, using existing CCTV network.

Applications: Factories, Offices, Smart Homes

EaglAI Edge

Edge stream analytics solution using our proprietary AI-on-the-Edge processor.

Applications: CNC Machines, Automated Lines, Discrete Machines
