

ONE STOP SOLUTION FOR INDUSTRIAL PRODUCTS AND SERVICES

ABOUT US

Multivista is one of the India's leading business entities in the Printing and Industrial Distribution sectors. The company came into existence in 1974. Multivista is a truly professional company which takes pride in its people, business processes and the relationship with principals and clients. Multivista has leveraged opportunities to build multiple product lines and a global clientele within these two core businesses and believes in the philosophy,

"Times Change, Values Remain."

OUR VISION

At Multivista our vision is driven by our passion to exceed the expectations of our most valued assets - our customers, our employees and our business partners while being a professionally managed, profitable organization, with core value and ethics.

OUR MISSION

To be the most preferred solution provider for industrial products and services, in the space of Air, Water, Power, Mechanical transmission and Industrial automation by offering innovative and end-to-end solutions to support our customer needs for their competitive business advantage.

ABOUT THE BUSINESS

Multivista's Industrial Distribution business unit provides complete life cycle support to our customers starting with pre-sales to product upgrades and retrofits. Our team of Solution and Application experts, Sales Engineers and Service Technicians are trained on our product, application nuances and industry domain best practices. Our partnerships span close to 4 decades and our diverse product portfolio cater to more than 45 industry verticals in the multiple geographies where we are present. Our customer care & logistics teams always ensure that our customer orders are serviced from the closest warehouse locations efficiently.

Compressing air while we compress your costs...

Reciprocating Air Compressor | Reciprocating Refrigeration Compressor | Electric Screw Compressor | Diesel Portable Screw Compressor | Centrifugal Compressor | Railway Brake Expressors | Transmission Drives | OEM Parts for Compressors.

Choose us for Reliable Fluid Management Solutions

Complete range of Spares for Industrial Pumps | Warranty support for Pumps | Preventive & Productive Maintenance | Comprehensive AMC.

After Market Service Ownership...

Installation and Commissioning Support | Warranty Service | CSP AMS | On-demand Maintenance Support Overhauling | Spare Parts.

We bear all the load for you ... Railways

Gear Case Bearing | Main Gear Bearing (L-Bearing) | UIC - 130 Bearing | Class E Bearing | Class F Bearing | MSU Bearing | Components.

A Solution for every one of your Utility Challenges

Process Heating Solutions | Process Cooling Solutions | Water Treatments Solutions | Membrane Filtration | Wastewater Treatment Solutions | Effluent Treatment Solutions | Solar PV.

Delivering Future Proof Industrial Automation Solutions

Control Systems | Industrial Control Components | Industrial Control Panels | Information Software | Motor Control Device | Sensing Device | Security Networks Safety | Power Conditioning Products | Visualization & HMI.

Field and Process Instrumentation

Pressure Measurement | Multivariable Measurement | Temperature Measurement | Level Measurement | Flow Measurement | Configuration and Device Management | Analytical Instruments | Programmers and Indicators | Recorders and Data Acquisition | Wireless Solutions | Valves | Connectivity Solutions | Electric Actuators.

Refining your Power Quality is our Responsibility

Single & Three Phase UPS | SCVS: Air & Oil Cooled | Static Transfer Switch | Active Harmonic Filters | Solar Inverters | Isolation Transformers | Industrial Inverters | Batteries Thyristors | Constant Voltage Transformers.

All about Networking...

In-Chassis Communication Modules | Communication Gateways | Extenders.

To help you Better Position your Solutions

Absolute Rotary Encoders | Incremental Rotary Encoders | Linear Sensors | Inclinometers' Accessories | Multiple Interface Options | Ingress Protection up-to IP69K | Magnetic and Optical Technology Products.
