## ABOUT US

Multivista is one of the India's leading business entities in the Printing and Industrial Distribution sectors having global presence with enthusiastic customer base. The company came into existence in 1974. Multivista is a truly professional company which takes pride in its people, business processes and the relationship with principals and clients.

Over the years, we have amalgamated our diverse businesses and reorganized ourselves with clear focus on Printing and Industrial Distribution. In living up to our corporate name and identity, Multivista has leveraged opportunities to build multiple product lines and a global clientele within these two core businesses.

Our Integrated Print House, one of the largest in India, serves international clients across Europe, USA, Latin America, Australia, New Zealand, Middle East and South East Asia, in addition to domestic Indian clients.

Multivista has always believed in stringent reporting and accounting norms and our disciplined approach has stood us in good stead through vagaries of economic cycles. Our reorganization of businesses and focus on core strengths has resulted in a healthy annual turnover and profitable business.

## ABOUT THE BUSINESS

Multivista's Industrial Distribution business unit provides complete life cycle support to our customers starting with pre-sales to product upgrades and retrofits. Our team of Solution and Application experts, Sales Engineers and Service Technicians are trained on our product, application nuances and industry domain best practices.

Our partnerships span close to 4 decades and our diverse product portfolio cater to more than 45 industry verticals in the multiple geographies where we are present.

Our customer care & logistics teams always ensure that our customer orders are serviced from the closest warehouse locations efficiently.

## MULTIVISTA PHILOSOPHY

Our Corporate Philosophy has emerged from our core value system and believes.

*"Times Change, Values Remain."*

## OUR VISION

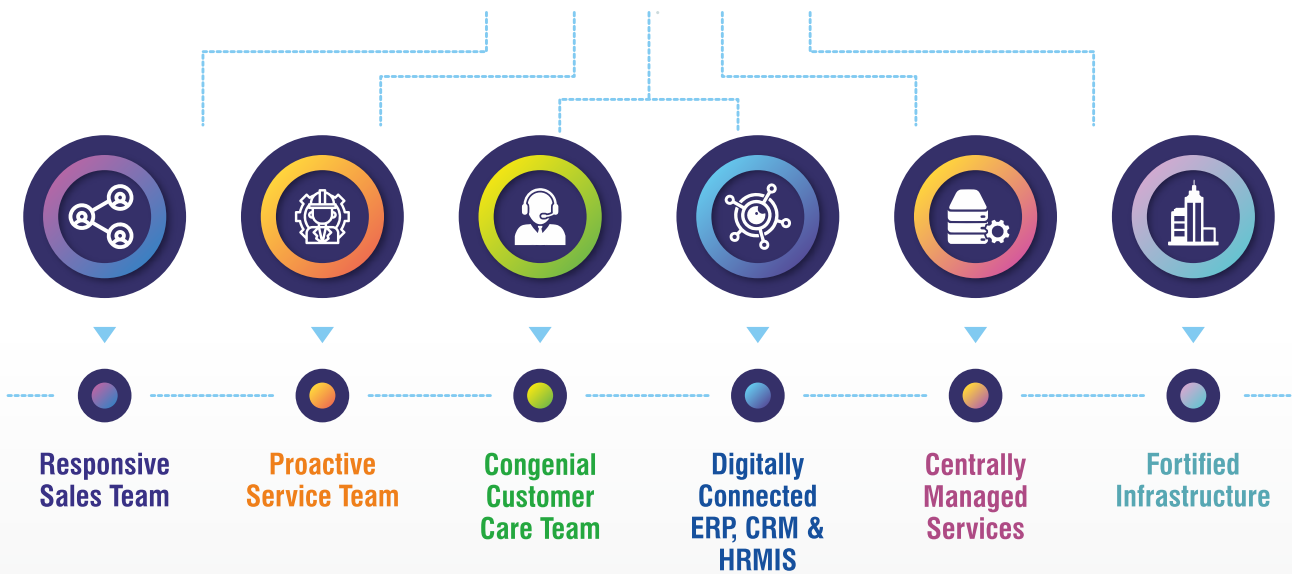

At Multivista our vision is driven by our passion to exceed the expectations of our most valued assets - our customers, our employees and our business partners while being a professionally managed, profitable organization, with core value and ethics.

## OUR MISSION

To be the most preferred solution provider for industrial products and services, in the space of Air, Water, Power, Mechanical transmission and Industrial automation by offering innovative and end-to-end solutions to support our customer needs for their competitive business advantage.
